

Advanced Cyber Investigation Solutions for Law Enforcement

Defeating Criminal Cartels | Drug Traffickers | Human Traffickers | Organized Gangs

Torres AI CI delivers Cyber Investigative Solutions to Law Enforcement customers in the United States and around the world. For example, our Cyber Teams deliver fully operational Cyber Investigative Units (CIUs) on a turn-key basis and provide Cyber Investigative services in support of police, intelligence and special operations units. The Cyber Investigative Solutions we deliver are essential law enforcement systems, tools and capabilities needed to collect evidence, identify, track and apprehend criminals, infiltrate criminal organizations and to identify and prevent threats against civilians, schools, governments and nations. Our Cyber Investigative Solutions include:

- The implementation of fully equipped Cyber Investigation Units (CIUs) with fully trained and capable personnel, and continuous support until your CIU is fully operational and effectively solving crimes and preventing threats. We do this in collaboration with your Law Enforcement teams.
- The performance of Cyber Investigations in collaboration with your investigative teams to solve crimes and prevent threats on an as-needed support basis. We do this from your designated locations or from our own work sites.
- The delivery of Cyber Investigation Training on Cyber Systems, Methods and Equipment, and continuous training, coaching and mentoring at your site or through video teleconferencing.

TORRES AI CI	
LAW ENFORCEMENT OPERATIONS SUCCESSES	
CRIMES SOLVED	CRIMINALS INFILTRATED

Abduction	Insurgent Groups

With your own CIU or Torres AI CI-provided services, you don't have to wait for outside government organizations to provide time-critical Cyber Investigative Support.

World-Class Cyber Investigative Systems and Methods

Our Cyber Investigative Solutions consist of among the best and most effective, reliable, robust and mature commercially available systems, software, equipment and methods in the entire world. They are today used by elite law enforcement, intelligence and special operations forces (SOF) organizations such as the FBI, CIA, ICE, DEA, state and local law enforcement agencies and by law enforcement and intelligence organizations of partner nations.

Torres AI CI is partnered with world-class and greatly respected cyber investigative system, equipment and tool providers such as Maltego and Cellebrite. The Maltego system is the central resource that gives law enforcement access to the digital web-based world of criminals. Cellebrite accesses, downloads and analyzes the data,

information, images and recordings stored on nearly all today's digital devices from hand-held to computers.

Our Cyber Investigative Solutions do not replace the duties of Law Enforcement professionals. These professionals are always the central and essential control points in every operation. Instead, our cyber capabilities are additional tools and resources that enhance, accelerate and advance investigative operations.

Artificial Intelligence Integrated with Cyber Solutions - Groundbreaking

Torres AI CI integrates Artificial Intelligence (AI) into our Cyber Solutions and Methods that model criminal acts, criminal behavior and threats. This value-added capability adds precision and further accelerates and advances criminal investigations and the identification of potential threats. AI is a game changer for law enforcement battling systemic organized crime.

Our Cyber Solutions in Action

Our Cyber Investigative Solutions identify, collect and analyze evidentiary data and information located within and throughout computers, servers, databases, networks and hand-held devices. They access the entire recorded digital world including the Superficial (Surface) Web, Dark Web, and the Deep (Invisible or Hidden) Web. They examine websites, social media platforms and postings, and phone, email and text communications, including current and past historical digital material. Our systems access the Dark Web to identify criminal elements that advertise their illegal products, crafts and services and where criminal organizations frequently conduct transactions and coordinate operations.

Cyber - Effective and Affordable

Torres AI CI's CIU and Cyber Investigative Support Services are the most cost-effective and affordable in the world. Our prices give law enforcement units at the federal, state and local levels the ability to implement their own Cyber Investigative Units and/or use our world-class Cyber Investigative Services. We will work with you, so you succeed in bringing safety and security to your communities.

The Torres AI CI Cyber Investigative Team

Our Cyber Investigative Leaders, Analysts, Instructors and support staff are among the most experienced in the world. They are Cyber Investigative and Cyber Intelligence Analysts and Teachers that served with elite US and European Law Enforcement, Intelligence and Special Operations units throughout their careers. They are today contributing to Cyber Investigation and Intelligence operations with Law Enforcement, Intelligence, Security and Special Operations Forces units in the Americas, Africa, Asia and Europe.
